

Recall Summary – European Toys

Published: 08 December 2020
RAPEX notification (Nov 2020)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00091/20	Slovakia	Textile doll (Country of Origin: The Netherlands)		Choking Small parts (the adhesive from the doll's hair) may easily detach from the toy. A small child may put it in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A11/00092/20	Slovakia	Textile doll (Country of Origin: China)		Choking The fibrous stuffing material is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Stop of sales, Warning consumers of the risks
A11/00093/20	Slovakia	Soft-filled toy (Country of Origin: China)		Choking The fibrous stuffing material is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standards EN 71-1.	Recall of the product from end users
A11/00094/20	The Netherlands	Wooden toy (Country of Origin: Thailand)		Choking The tail of the toy can be easily detached. A child could put them in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market

A11/00099/20	Croatia	<p>Swing</p> <p>(Country of Origin: Croatia)</p>		<p>Entrapment, Strangulation</p> <p>The cord of the swing may be wrapped around the child's neck, and may lead to strangulation and entrapment risks. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-8.</p>	Ban on the marketing of the product and any accompanying measures
A11/00100/20	France	<p>Plastic frisbee with LEDs</p> <p>(Country of Origin: China)</p>		<p>Damage to sight</p> <p>The laser beam located in the internal LED at the centre of the frisbee is too powerful (1.96mW against a limit of 0.39mW). Direct viewing of the laser beam if the LED is taken out of the frisbee could cause damage to sight. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.</p>	Other
A12/01447/20	Poland	<p>Plastic wind-up toy</p> <p>(Country of Origin: China)</p>		<p>Choking</p> <p>The product has small parts (plastic wheels, plastic winding key) that can be easily detached. A child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Withdrawal of the product from the market
A12/01448/20	Poland	<p>Toy police set</p> <p>(Country of Origin: China)</p>		<p>Chemical</p> <p>The toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 3,72%), dibutyl phthalate (DBP) (measured value up 13.5% by weight). Moreover, diisobutyl phthalate (DIBP) has been detected in toy. These phthalates may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.</p>	Destruction of the product, Withdrawal of the product from the market

A12/01449/20	United Kingdom	Magnetic toy set (Country of Origin: Unknown)		Choking, Injuries The product's pieces contain a small magnet with a high magnetic flux. If a child swallows one or more magnet and/or other metallic objects, they could attract one another causing intestinal blockage or perforation. Furthermore, the product's pieces are small and the magnet can easily be detached. If a child puts it in the mouth, it could cause choking. / The product does not comply with the requirements of the Toy Safety Directive and of the relevant European standard EN 71.	Removal of this product listing by the online marketplace
A12/01450/20	Cyprus	Toy gun set (Country of Origin: China)		Choking The suction cups can be easily detached. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. / The product does not comply with the requirements of the Toy Safety Directive and of the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01459/20	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 32% by weight respectively). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01460/20	Hungary	Doctor play set with doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of dibutyl phthalate (DBP) and bis(2-ethylhexyl) phthalate (DEHP) (measured values: 0.33% and 1.6% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/01468/20	Hungary	Plastic bouncing ball (Country of Origin: China)		Chemical The plastic material of the ball contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 45% by weight). This phthalate may harm the health of children by causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market

A12/01471/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.8% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01472/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 13.2% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01473/20	Czechia	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.8% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01474/20	Czechia	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the dolls' heads contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.1% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/01476/20	Hungary	Toy slime (Country of Origin: United Kingdom)		Chemical The migration of boron from the toy is too high (measured value up to 1208 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market
A12/01478/20	Germany	Stress ball (Country of Origin: The Netherlands)		Microbiological The liquid in the product is contaminated with micro-organisms, almost exclusively of Burkholderia cepacia (measured value 380 000 CFU/g). The product can be damaged during play and fluid may leak out. If the person using the toy has skin injuries, germs may enter the body. Burkholderia cepacia may cause infections such as pneumonia, wound infections, and sepsis, especially in immunocompromised people. / The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users, Stop of sales, Warning consumers of the risks
A12/01485/20	Hungary	Doctor play set (Country of Origin: China)		Chemical The cuff blood pressure monitor contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 11% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/01488/20	The Netherlands	Wooden toy (Country of Origin: China)		Choking Small parts (the green crown and stalk from the fruit) may be easily detached from the toy. A small child may put the small parts in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market

A12/01489/20	United Kingdom	Soft Toy (Country of Origin: China)		Choking The nose can easily detach from the toy, generating small parts. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01492/20	The Netherlands	Wooden Toy (Country of Origin: Unknown)		Choking The leg of the music box can easily detach. A small child may put it in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01493/20	Hungary	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value up to 2850 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market
A12/01495/20	France	Toy crossbow set (Country of Origin: Poland)		Injuries The kinetic energy of the arrows fired from the crossbow is too high which can lead to eye injuries. / The product does not comply with the requirements of the Toy Safety Directive and of the European standard EN 71-1.	Withdrawal of the product from the market
A12/01497/20	Croatia	SLIME TOY (Country of Origin: China)	(No picture)	Chemical The migration of lead from the toy is too high (measured value up to 7,90 mg/kg). Lead is harmful to human health, accumulates in the body and can cause developmental neurotoxicity. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures

A12/01498/20	Croatia	SLIME TOYS (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 748.0 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users
A12/01511/20	Hungary	Toy gun set (Country of Origin: China)		Chemical, Choking The suction cups can easily detach from the projectiles. If a child puts the projectile in the mouth, the suction cups may detach and obstruct the airways. The suction cups contain di-(2-ethylhexyl) phthalate (DEHP) (measured value: 8.7% by weight) and dibutyl phthalate (DBP) (measured value: 12% by weight). These phthalates may harm the health of children causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/01513/20	United Kingdom	Playmat (Country of Origin: China)		Burns, Choking, Injuries The plastic elements connecting the toys to the arches can break, producing small parts. Small children could put the small parts in the mouth and choke. The battery compartment can be easily opened without the aid of a tool, leaving button batteries accessible. A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract if swallowed. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Destruction of the product

A12/01514/20	Poland	Plastic ball (Country of Origin: China)		Chemical The toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 28.3% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive.	Destruction of the product, Withdrawal of the product from the market
A12/01515/20	Poland	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 38.8% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive.	Destruction of the product, Withdrawal of the product from the market
A12/01516/20	Slovakia	Modeling clay (Country of Origin: China)		Chemical The migration of boron from the clay is too high (measured value up to 1730 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market

<p>A12/01517/20</p>	<p>Slovakia</p>	<p>Soft toy (Country of Origin: China)</p>		<p>Chemical, Choking Small parts (the eyes, the zipper puller, the glue, the wires of the neck, the push-button of the left wing) can easily detach from the toy. A small child may put them into the mouth and choke. The fibrous stuffing material is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. The battery compartment can be easily opened without the aid of a tool, leaving button batteries accessible. A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract if swallowed. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and the relevant European standard EN 62115.</p>	<p>Stop of sales, Warning consumers of the risks</p>
<p>A12/01518/20</p>	<p>Slovakia</p>	<p>Soft-filled doll (Country of Origin: China)</p>		<p>Choking, Cuts, Injuries Small parts (the tabs, the glue fragments from the dress sheets, the springs and the speaker from the sound mechanism, the button, the circuit board) can easily be detached from the toy. A small child may put them into the mouth and choke. Moreover, the speaker from the sound mechanism contains a small magnet with a high magnetic flux. If a child swallows the small magnet and other metallic objects, they could attract one another causing intestinal blockage or perforation. Furthermore, the housing of the sound mechanism can be easily opened and the metallic connections of the batteries generates sharp edges which could cause cuts. In addition, the fibrous stuffing material is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	<p>Stop of sales, Warning consumers of the risks</p>

A12/01519/20	Slovakia	Soft-filled toy (Country of Origin: China)		Choking A small part (the suction cup) may be easily detached from the toy. A small child may put the detached element in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/01520/20	Slovakia	Bouncy toy (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of dibutyl phthalate (DBP) (measured value 1.96% by weight) and diisobutyl phthalate (DIBP) (measured value 6.94% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Stop of sales, Warning consumers of the risks
A12/01521/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to: 37.4% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01523/20	Hungary	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value 3110 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market
A12/01525/20	The Netherlands	Wooden toy (Country of Origin: Unknown)		Choking The toy contains small parts (wooden blocks). A child may put any of them in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market

A12/01526/20	The Netherlands	Wooden toy (Country of Origin: China)		Strangulation The strap attached to the camera has no quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01529/20	The Netherlands	Teething toy (Country of Origin: Belgium)		Choking The wooden rigs protrude. A small child may put the protruding parts in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01531/20	The Netherlands	Rattle toy (Country of Origin: Unknown)		Choking Small parts can easily detach (the bells). As a consequence, a small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01532/20	The Netherlands	Toy car (Country of Origin: China)		Choking Small parts (the wheel, the pen, and the puppet) can easily detached. A child could put these in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Warning consumers of the risks, Withdrawal of the product from the market

A12/01533/20	Czechia	Floating seat (Country of Origin: China)		Chemical The plastic material of the toy contains di-(2-ethylhexyl) phthalate (DEHP) (measured value up to 19.21% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01548/20	United Kingdom	Play mat (Country of Origin: China)		Choking, Suffocation Small parts (balls and ring) can easily detach. A small child may put one of them in the mouth and choke on it. If a child puts the geometric shapes in the mouth, these figures could detach and obstruct the airways, leading to suffocation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product
A12/01552/20	Finland	Barbecue play set (Country of Origin: China)		Choking, Injuries The product contains a magnet which is a small part and has a high magnetic flux. A small child could put the magnet in the mouth and choke on it. If a child swallows the small magnet and other metallic objects, they could attract one another causing intestinal blockage or perforation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01553/20	Czechia	Plastic doll with accessories. (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 37.9% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/01554/20	Hungary	Toy trumpet (Country of Origin: China)		Choking The mouthpiece can become detached, generating small parts. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Recall of the product from end users, Withdrawal of the product from the market, Withdrawal of the product from the market
A12/01560/20	Poland	Plastic toy (Country of Origin: China)		Chemical The toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 40.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/01568/20	United Kingdom	Toy drum set (Country of Origin: China)		Choking, Damage to hearing Small parts easily detach from the product. A small child may put them in the mouth and choke on it. Furthermore, the sound pressure level is too high (measured value: up to 87 dB). This could lead to temporary / permanent loss of hearing, when the product is used. / The product does not comply with the requirements of the Toy Safety Directive and of the relevant European standard EN 71.	Removal of this product listing by the online marketplace Recall of the product from end users
A12/01573/20	United Kingdom	Plat mat (Country of Origin: China)		Choking, Suffocation Small parts (pink and orange rattle) can easily detach. A small child may put one of them in the mouth and choke on it. If a child puts the geometric shapes in the mouth, these figures could detach and obstruct the airways, leading to suffocation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product

A12/01575/20	United Kingdom	Lacing Toy (Country of Origin: China)		Choking Small parts can be easily detach. As a consequence, a small child may put them in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01578/20	Cyprus	Plastic doll set (Country of Origin: China)		Chemical The doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 40% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01579/20	Cyprus	Doll with accessories (Country of Origin: China)		Chemical The doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 28% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01582/20	Poland	Plastic toy (Country of Origin: China)		Chemical The toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 34%). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01612/20	United Kingdom	Soft toy (Country of Origin: China)		Choking The product has small parts that can easily detach. A small child may put them part in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Removal of this product listing by the online marketplace Recall of the product from end users

A12/01618/20	The Netherlands	Wooden toy (Country of Origin: Unknown)		Choking The product contains small parts (wooden doll and trees), a child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01628/20	United Kingdom	Toy scooter (Country of Origin: China)		Entrapment, Injuries, Suffocation During the folding procedure of the product, a child may introduce a limb or part of the body in the opening. Consequently, the child will be trapped, or have a limb or part of the body crushed. Moreover, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. / The product does not comply with the requirements of the Toy Safety Directive and of the relevant European standard EN 71.	Destruction of the product
A12/01635/20	The Netherlands	Draw toy (trekspeelgoed) (Country of Origin: China)		Asphyxiation, Choking Small parts (eyes of the snail) may easily detach from the toy. A small child may put one of them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01636/20	The Netherlands	Wooden Toy (Country of Origin: China)		Choking, Injuries Some parts of the toy (the head, the lid, and the right eye) may easily detach. A small child may put them in the mouth and choke on them. Some other parts protrude. If a child puts the toy in the mouth and falls face down, the protruding parts could obstruct the airways, causing choking and injuries around the pharynx or trachea area. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Warning consumers of the risks

A12/01637/20	The Netherlands	Wooden Toy (Country of Origin: China)		Choking Small parts (the bell and the two wooden discs) may easily detach from the toy. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Warning consumers of the risks
A12/01638/20	The Netherlands	Wooden toy (Country of Origin: Germany)		Suffocation The product may break releasing small parts. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01639/20	The Netherlands	Wooden toys (Country of Origin: China)		Choking The button on the back of the red gear can detach from the toy. A small child may put it in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01640/20	The Netherlands	Wooden toy (Country of Origin: China)		Choking The wheels of the small cars can be easily detached. A child could put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/01641/20	Spain	Set of soft toys (Country of Origin: China)		Choking A small part (eye of the Dalmatian dog) can easily become detached from the toy. A small child may put it in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Other

A12/01642/20	The Netherlands	Wooden Toy (Country of Origin: Poland)		Choking, Strangulation, Suffocation Small parts can easily detach (the ears). As a consequence, a small child may put them in the mouth and choke on them. Furthermore, the cord of the toy is too long. It may get wrapped around the child's neck and lead to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01643/20	The Netherlands	Wooden Toy (Country of Origin: Unknown)		Strangulation The cord of the toy is too long. It may get wrapped around the child's neck and lead to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market
A12/01646/20	The Netherlands	Wooden Toy (Country of Origin: Unknown)		Suffocation The beads of the product can detach. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Withdrawal of the product from the market

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between [31 European countries](#) and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous, or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Nov 2020)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2020/18180	Australia	Multiple rubber bath toy animals in one pack		These products do not comply with the mandatory standard 'Consumer Protection Notice No. 14 of 2003 - Consumer Product Safety Standard: Toys for children up to and including 36 months of age'. 2020/18661	Australia	Kaiser Style Cuddle Blankets:		This product may contain mold contamination.	Consumers should immediately stop using the products and return them to the nearest Kaiser craft store to receive a full refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
