

Your **Global** Testing,
Inspection & Certification Partner

PRE-SHIPMENT INSPECTION

The best way to insure your shipment meets all regulations and is up to the standards you expect.

What is Pre-shipment Inspection (PSI)?

PSI is a key step in freight shipping that assures your production complies with the **specifications of the buyer** and/ or the **terms of a purchase order**.

Normally, PSI is conducted on **100%** finished products with at least **80%** of the order packed for shipping.

Our PSI criteria covers **quantity** and **quality check, defects identification** and ensures the products meeting the **safety requirements** of the destination market.

PSI can help and ensure your order has been produced to your specifications before shipping.

YOUR BENEFITS

- **Verify quality** to reduce the risk of receiving defective goods
- **Avoid product returns** to minimize costly risk and shipment delay
- **Suggest corrective measures and actions** to avoid brand damages

About STC

STC (Hong Kong Standards and Testing Centre) is the first independent, not-for-profit testing, inspection and certification organization in Hong Kong. Since its establishment in 1963, STC has been dedicated to providing professional, reliable and comprehensive testing and inspection services, and issuing the highest quality reports to ensure product compliance with relevant technical and safety requirements while keeping pace with the development of trade and industry.
